

F8800 - COMETEO

Model: F8000

The weather station is equipped with a Comet sensor for accurate measurements.

- Air temperature

- Humidity

- Barometric pressure

- Wind speed and direction

The weather station is designed for easy installation and use.

- Simple setup

- Durable construction

- Accurate measurements

- Compact design

The weather station is suitable for use in various environments.

The weather station is suitable for use in various environments.

The weather station is suitable for use in various environments.

The weather station is suitable for use in various environments.

The weather station is suitable for use in various environments.

GENERAL TECHNICAL DATA	.
Temperature operating range	-40 to +80 °C
Relative humidity operating range	0 to 100 %RH
Storage temperature range	-40 to +80 °C
Storage relative humidity range	0 to 100 %RH (no condensation)
Dimension	220 mm (diameter), 250 mm (height)
Weight	approx. 900 g
Material	ASA - UV stabilized, antistatic
Warranty	3 years
