

T0118 4-20mA

Model: T0118

A high-precision digital temperature sensor with a stainless steel housing, suitable for HVAC applications. It features a 4-20mA output and is compatible with the KU68 terminal block.

Equipped with an LED indicator.

Available in various configurations.

Features

Accuracy	±0.5°C
Resolution	0.1°C
Operating Range	-10 to +50°C
Output	4-20mA
Power Supply	9-30Vdc
Dimensions	88 x 106 x 33 mm (W x H x D)
Material	ABS
Weight	150g
Quantity	3
