

T0218 0-10V

Model: T0218

A precision digital temperature sensor module.
 Designed for HVAC applications.
 Features a high-precision sensor and a 4-wire I2C interface.

Features

Accuracy	±0.5°C
Resolution	0.1°C
Operating Range	-10 to +50°C
Output Range	0-10V
Output Type	Analog
IP Rating	IP20
Voltage	15-30Vdc, max 20mA
Dimensions	88 x 106 x 33 mm (W x H x D)
Material	ABS
Weight	150g
Lead Time	3 weeks
