

T0410 RS485

Model: T0410

Temperature sensor / transmitter

T0410 is a high-precision temperature sensor with an LED indicator and RS485 interface.

Features

| | |
|-------------|--|
| Accuracy | ±0.4°C |
| Resolution | 0.1°C |
| LCD display | Operating range: +70°C to +70°C, LCD display |
| Protocol | ModBus RTU, Advantech ADAM |
| Rate | 110 to 115200 Bd |
| IP rating | IP65 |
| Power | 9-30Vdc, 6mA |
| Dimensions | 88.5 x 148 x 39.5 mm (W x H x D), 53 mm |
| Weight | 140g |
| Life | 3 years |
